

## **Mini Project: Personal Portfolio Website**

To design and develop a personal website that showcases individual details, skills, achievements, and projects.

### **Instructions:**

1. The website should include at least the following sections:
  - Home
  - About Me
  - Education / Skills
  - Projects / Portfolio
  - Contact Information
2. Use HTML and CSS as the primary technologies.
3. Maintain a consistent color scheme and typography throughout the website.
4. Include suitable images, icons, or graphics to enhance the overall presentation.
5. All written content should be original and relevant.
6. Include links to external profiles (e.g., LinkedIn, GitHub, etc.).
7. Provide brief descriptions for each project listed.
8. Ensure that all internal and external links, as well as media paths, are fully functional.

### **Submission Guidelines:**

1. Name all files appropriately, including images, stylesheets, and other resources.
2. Host the website on any web hosting service and provide the URL in a separate file; it must be functional, otherwise the project will not be evaluated.
3. Keep all the relevant files inside a single folder named with your roll number (without any slashes “/”).
4. Compress the folder into a .zip file named with your roll number (without any slashes “/”).
5. Submit the final .zip file before the due date — 15/11/2025 (5:00 PM).
